

Location

The INEBRIA Network meets again in Barcelona 9 years after the inaugural conference.

For this occasion, the venue will be CaixaForum Barcelona, a social and cultural center housed in an old refurbished textile factory which stands as the only example of Catalan Art-Nouveau industrial architecture of the 20th century.

Located in Plaza España (central, easy access from airport and close to main train station).

Accommodation

You are responsible for booking your own hotel. Organizers have arranged a "ceiling" selling price with one hotel located near the meeting venue. More information is available in the website.

Social information

Organizers are planning a social dinner and a cultural visit. Additional registration will be needed.

The area where the venue is located offers a lot of interesting possibilities for sightseeing. Among the most interesting are: Miro Museum, Catalan National Museum of Art, Olympic Buildings, etc.

Organizer

 Generalitat de Catalunya
Agència de Salut Pública de Catalunya

Conference programme and overview

The conference aims to:

- Enhance research on EIBI/SBI implementation as a public health tool
- Expand EIBI/SBI in emerging economies
- Promote expansion of EIBI/SBI to other drugs
- Continue promoting the use of new technologies on the implementation of EIBI/SBI
- Review the major achievements in EIBI/SBI research in the last 9 years since INEBRIA was launched and INEBRIA's contribution to them

The conference would like to serve as a tool to stimulate international cooperation among INEBRIA researches exploring different funding opportunities (NIDA, FP7, SANCO, etc) and especially among Spanish/Catalan speaking communities, hence the provision of English/Spanish translation throughout the conference.

A detailed conference programme will be available in the coming months.

Pre-conference

(only for members of the Catalan Network (XaROH) and invited speakers)

La III Jornada de la Xarxa de Referents en Alcohol (XaROH) tindrà lloc el dimecres dia 26 de setembre, en forma de pre-conferència, just un dia abans de la celebració de la 9ª Conferència d'INEBRIA amb l'objectiu de seguir compartint experiències entre tots els membres però també d'estimular la participació de la XaROH en la conferència internacional, de promoure sinèrgies i de presentar al món la feina que estem fent a Catalunya.

Així estem treballant en un programa específic per la III Jornada però en general es combinaran exposicions amb continguts científico-tècnics amb espais més participatius, formatius o debats.

Per més informació o dubtes podeu posar-vos en contacte amb: beveumenys.salut@gencat.cat

Registration and abstract submission

Registration for the 9th annual INEBRIA Conference is open, visit www.inebriaconferencebarcelona.net for more information.

Call for submission of abstracts was closed on the 1st of June. A total of 94 abstracts were received and are being reviewed right now. Authors will receive responses before the end of the month. Preliminary programme would be available by beginning of July.
